

**M.S.B.O.A. District 8**  
**Band and Orchestra Festival**  
Report to Membership: January 11, 2011

**I. Festival 2011**

- A. I am beginning to work on the schedule. Performance schedules will be available no later than January 28, 2011—possibly earlier. Work assignment schedules will be announced by February 4, 2011.
  
- B. If you requested a Friday site, please know only about half of the requests can be honored. I have already had several correspondences with directors pleading their case. I will do the best I can! That being said, make sure you go into the festival registration area and double check your second choice option.

**II. Sight Reading Music**

Sight-reading music is available for purchase at half-price. This benefits you and helps the district as well. A list of available music with me and this list is posted on our district web-page. Please email me if you are interested in any of these titles.

**III. Festival 2012**

Given the issues we are having with requests for school day/ weekday sites, I think it would be helpful to look for sites that could possibly host a Thursday evening or all day Friday like the East Lansing site.

Please call or email me if I can be of any assistance in addressing your questions or concerns.

Respectfully Submitted,

Sheri L. Powers  
VP Band and Orchestra-District VII
